Dear **John**

Thank-you for your interest in the

Numerological Character Report™ & Numerological DayTracker™

The profile was designed to give you an introduction to the concept of the influence of mathematics in determining your inner potential (derived from your birthdate), your destiny (derived from your business signature), and your cycle year of growth (also derived from the birthdate).

N.B. If you were born within a half hour period after midnight (standard time) then the information in the profile will have to be modified. If this is the case please contact our office. If your time of birth on the front cover has 'adj' at the end, then the profile has already been adjusted.

The profile does not include an analysis of the influence on your thinking of your individual first and last names. This is done in a personal consultation (\$2.00/minute), and will determine whether your names are allowing the expression of your true inner potential.

Your name is the nucleus of your thinking. If it is not mathematically balanced to your purpose in life (your inner potential) then the conflicting mental forces may create physical discord resulting in sickness, lack of harmony in associations, financial instability, and the sense that you are not expressing your true nature.

A personal consultation (at my office or by phone) will put this information in perspective, answer any other questions you might have, and if you wish I will recommend a name that will allow the full expression of your true inner potential creating the greatest degree of happiness, health and fulfillment as a natural consequence of constructive thinking.

I look forward to being of assistance in any way possible.

Yours Sincerely,

Colin Maxwell

B.Sc. (Electronic Engineering, University of Southampton, England)
B.A. (Psychology, University of Alberta, Canada)

INNER POTENTIAL (MAJOR LIFE LESSON)

John your purpose in life, which is an unlimited potential, was created when you took your first breath (ie. on your birthdate September 25, 1969 and the mathematical reduction of the month, day and year reveals the quality and type of intelligence that you are to express in this life. We refer to this as your inner potential number (sometimes referred to as your major life lesson). N.B. The constructive qualities of your inner potential may not be fully expressed if your thoughts which are created by the use of your first and last name are not in harmony with the natural potential created at birth.

YOUR INNER POTENTIAL NUMBER IS 5
(based on your birthdate of September 25, 1969.)

The '5' represents the promoter and traveller and is an intense, restless, seeking and analytical power that must have an outlet through creative accomplishment free from interference. Your purpose in life is to rise above the limitations of traditional conformity to an established system lacking basic truth and create a new life based on a more logical and principled way of thinking.

The 5's are the revolutionaries of society and are inclined to fight against injustice and inequality and to support the underdog. Even when the odds are against you, you will often persevere to uphold a principle you believe in.

The 5's need a constant source of stimulation to keep them interested otherwise they are inclined to leave all that they have accomplished and move on to greener pastures where they can start something new that has caught their attention. To a '5' nothing is impossible.

You will live a thing night and day if you are interested but as soon as your interest level drops it is too easy for you to become bored and not finish what you have started even if it is almost completed. You should never have to put more than one or two coats of paint on a car or knit the second sleeve on a garment you are making. When the work becomes repetitive you will find that the quality of the work will suffer.

You will find a great appreciation for the out-of-doors and sports that are of a more active and competitive nature. In fact when you are experiencing a mood of depression when things are not going your way, you will find that some vigorous exercise that almost drives you to the point of exhaustion can pull you out of it. You probably do not appreciate help in the form of sympathy from others but would rather know that you were able to solve your own problems by your own efforts. You do not like to be dependent on others.

Your future oriented thinking makes you a catalyst for the thoughts and actions of others. You are often ahead of your time with your ideas, and might think that you were born a generation too soon.

Relationships may be difficult for you as your nature demands freedom and variety. Your partner would have to have a great understanding and realize that the more they demand, the more likely you will be to do exactly the opposite. Your zeal in pursuing the things that interest you may also give others the sense that you can not be bothered with them, unless they also are caught up in the same pursuit. Learn to relax and give some of your time to others, they will support you more fully in achieving your goals.

Although at times you may be very critical of others, and abuse the power of the word through sarcasm, you will find that you will be the one that suffers through a sensitivity in the solar plexus and stomach. Make sure that what you "dish" out to others, you can also take.

There is a tendency with your nature to go to extremes. For instance extremes of optimism and pessimism. It is important to learn patience and that time will create growth if given the chance. If you will learn this lesson of patience and how not to build mountains out of molehills you will not be so inclined to consider self-destructive avenues (alcohol, drugs, suicide) as a means out of a dilemma. Other health problems would include those affecting the stomach and digestive system as well as the nervous system through the solar plexus.

You will have greater compatibility with inner potential numbers 1, 3, 5, & 8, especially if they are the same Type as you (see Compatibility Section). You will have least compatibility with inner potential numbers 2, 4, 6, & 9.

Biblical Character: "David" - He slew the giant Goliath with a slingshot and five stones. 1 Samuel Ch. 17.

Common Expression: "A change is as good as a rest."

"*" - THESE PEOPLE DIED VIOLENTLY

Your inner potential may express either constructively or destructively depending on your name.

If your name creates thoughts that are relative to your inner potential then more of the constructive qualities will express.

If you are expressing more of the destructive qualities then you should consider changing your name to one that will allow greater constructive expression of your inner potential.

CONSTRUCTIVE QUALITIES:

new life	investigative	promotional
love freedom	charitable	versatile
artistic	self-reliant	quick thinker
changeable	ambitious	progressive
daring	curious	clever
sensual	naive	

DESTRUCTIVE QUALITIES:

self-indulgent	unstable	moody
chaotic	candid	cruel
quick-tempered	unsociable	self-destructive
unsystematic	irresponsible	inconsistent
thoughtless	insecure	satirically
contemptuous	never wrong	

Calculating your inner potential number

By reducing your date of birth to a single digit (one number), you can determine your inner nature. To calculate your inner potential number, add the month + day + year of your birth. For example December 22, 1942: December is the 12th month, therefore, it must be reduced to a single digit $1+2=3$. Then reduce the day to a single digit-for the 22nd add $2+2=4$. Now reduce your year of birth to a single digit: 1942 would be $1+9+4+2=16$ $1+6=7$. Then add month, day, and year together: $3+4+7=14$ and $1+4=5$. Therefore 5 is your inner potential number.

SEXUAL EXPRESSION & YOUR INNER POTENTIAL NUMBER

Each of the single digit numbers (1 through 9), have sexual characteristics peculiar to themselves. The following are the characteristics inherent in your inner potential number which is derived from your birthdate. However, keep in mind that you are not just one number; your birth date and name have other numbers that will modify, amplify, or even repress totally the

characteristics of your inner potential number. Problems with sexuality may result if the "natural" or inherent needs of the inner potential number are not expressed.

Some names that have the sexual characteristics of your inner potential number are also included.

FIVE: Sex on the go. Sex must be an adventure for the fives. You love sex while traveling or in unusual places, where there may be a risk of getting caught. Members of the Mile High Club. You enjoy unplanned sex on the spur of the moment. You dislike repetition and monotony. You want the impossible. Marriage is often a trial for you, and will get involved with someone who is already married. Fives want freedom and dislike obligations.

Example: Mick Jagger.

Lesson: Know when to stop and not go too far.

Names that have this energy: Kyle, Kevin, Eric, Brent, Erin, Laura, Lindsey, Kelly.

Note: Men tend to express more of the extreme characteristics of each number than women.

INNER POTENTIAL - MINOR LIFE LESSONS

The Minor Life Lessons below indicate the additional lessons to be learned during the time periods specified. The first, second, and third lessons are based on the individual month, day, and year of your birth. (The same Minor Life Lesson may be repeated and may also be the same as your Inner Potential Number).

First Minor Lesson (based on your month of birth **September** reduced to a single digit = **9**), Ages 0-27: **HUMANITARIAN, SPECIALIST: Learn the lesson of giving, without expecting in return.**

Second Minor Lesson (based on your day of birth **25** reduced to a single digit = **7**), Ages 27-54: **PHILOSOPHER, WRITER: Be comfortable being yourself, the secrets of life are within.**

Third Minor Lesson (based on your year of birth **1969** reduced to a single digit = **7**), Ages 54+: **PHILOSOPHER, WRITER: Be comfortable being yourself, the secrets of life are within.**

As you can see there may be major changes in your life at the ages of 27 and 54, when the drive to learn the next lesson manifests itself. Educational experiences in the early lesson should also take into account the needs of later life lessons. You may also use the minor lesson you are currently in to narrow your list of suitable careers.

COMPATIBILITY

People may be classified into three different types in terms of their basic characteristics.

Type 1 (Water): Practical and Independent, Close to Nature- Leaders
Born on these days of the month: 1, 5, 7, 10, 14, 16, 19, 23, 25, 28

Type 2 (Fire): Social, Technical and Organizational- Team Players
Born on these days of the month: 2, 4, 8, 11, 13, 17, 20, 22, 26, 29, 31

Type 3 (Air): Inspirational and Artistic, Spiritual Teachers- Motivators
Born on these days of the month: 3, 6, 9, 12, 15, 18, 21, 24, 27, 30

Note: Water, Fire, and Air refer to numerological not astrological types.

According to the day of the month that you were born, you are a **Type 1 (Water)**. You will have therefore a basic inner compatibility for personal relationships, with other Type 1 people. i.e. those born on the following days of any month:

1, 5, 7, 10, 14, 16, 19, 23, 25, 28

The Water Group represents self-development, leadership, and the implementation of constructive action - Do! Don't just say. You also appreciate when people say what they mean and mean what they say. Your education is often self-taught, and best learned on the job. Apply what you learn quickly, it will be more meaningful that way. Theory and practice should go hand in hand. You tend to take things literally, so learn how to read between the lines when relating to Types 2 and 3. Most people will regard you as being straight-forward and up front - What you see is what you get.

YOUR FIRST NAME - Expression/Personal Growth Number

Your first name **John** (652) is important in determining many personal characteristics. If it is also in harmony with your inner potential number of **5** you will experience greater confidence and satisfaction with life.

Make the most of your sensitive and feeling side. The key to your growth lies in expressing your extremely caring and understanding ways so that you maintain good relations with other people. You strive to make the best impression on others, but you can be more direct than you think without offending people.

Your name gives you a good sense of balance and harmony and often promotes a calm and supportive environment which others appreciate. Express your friendship and affection as openly and directly as you can. If you worry that others will criticize you or reject your efforts, you may hold back and be frustrated and resentful. Don't downplay your contributions. For advancement in your personal life, don't put yourself on hold waiting to receive recognition and approval for your caring efforts; believe that you already have it and move on.

This name would not be as appropriate if your inner potential number is 1.

YOUR BUSINESS SIGNATURE

J. Smith (977)

Your business signature if used consistently will take you into positions where you must work alone, separate from others and often in the out-of-doors or dealing with the products of the earth. Your signature may create a degree of financial stability contributing more to the accumulation of assets as opposed to having a consistent cash flow.

You will often be in positions where much work is done behind the scenes for a project but when completed it seems that you do not get the recognition or credit given the amount of work done. This is the influence of the speech writer or executive assistant.

You may find yourself in situations where basic research and investigation must be performed in an in-depth and thorough way.

This signature will often create an aura of mystery and a possible involvement in some of the more intangible aspects of life (eg. in religion, philosophy or the occult).

This signature is most relative to someone working as a writer, executive assistant, researcher, historian, forester, librarian, minister, chemist, electrician or in any position requiring thoroughness and quality where there is an environment of quietness.

Please note that the above analysis is based on the letters used in the signature not on its graphological form.

YOUR RECOMMENDED BUSINESS SIGNATURE

John Smith (628)

The recommended business signature if used consistently will take you into positions where you exercise control of material and financial resources. It has the potential to create a great deal of financial stability and accumulation. Opportunities for advancement to positions of recognition and authority will come your way.

This signature requires that you be decisive, organize your efforts for long term goals, and assume the leadership position in all undertakings. This influence is most conducive to success in the business world.

If your names are balanced this signature will also create the environment where you could successfully "materialize" the qualities represented by your inner potential. For example if you are born to be an entertainer or artist a balanced name and this signature would create the type of thinking and the right type of opportunities and environment to fulfill that potential successfully.

This signature is most relative to someone working as an executive, manager, businessman, lawyer, banker, accountant, school principal or administrator, treasurer, stock broker, economist, or in any position that has final decision making authority or where financial remuneration is based on the ability to organize large undertakings and the efforts of others. If you have an artistic or creative potential, this signature will allow you to benefit financially from your abilities.

(The recommended name above may contain an initial or name that is not part of your existing birth name or current names, if no suitable initial or name is available from them.)

YOUR HOME NUMBER

Your apartment number or the number on your house influences the people living there. All numbers have a constructive and destructive aspect. The more positive the people living there, then the more positive will be the influences of the number on your home.

Your home number of **#9** is a **9** vibration.

Your home number reduces to a '9' vibration, and creates a very intense emotional reaction in those living there. A great deal of love and compassion will be extended to others, although you will often find yourself giving more than you receive (sometimes to extremes). People will

come over to borrow from you, or ask for favours. This home vibration best suits an environment where service to others in a humanitarian, charitable, or other type of universal ideal can be expressed. Guard against spending excess amounts of money in exotic renovations, as they will rarely pay off. This home also reduces the usual limitations on all types of expression. This may result in a Pandora's Box of chaos or a refreshing personal transformation.

If those occupying this home do not express themselves in a giving way, losses, jealousy, fits of anger, and perhaps sudden tragedy may occur. This home vibration amplifies all emotions and requires a great deal of constructive and consistent thinking to create a stable atmosphere.

There is a certain explosive quality to living in this home.

For a family or couple the best vibration to have would be 6 or 8. The 8 is especially good if you also wish to have a business in the home, or as an investment. 2 or 4 would not usually be quite as good. However if you have a restless nature, the 2 vibration will help you relax. To calculate the vibration of a home, just add the numbers together that make up the apartment number or number on the house, and then reduce to a single digit. For example #39 is a 3 vibration ($3+9=12$, and then $1+2=3$).

CYCLE YEAR 5 IN 2004

CYCLE YEAR FIVE

***** 1 2 3 / 4 5 6 / 7 8 9 *****

January through December is the fifth year of your nine year cycle and this is the time for action, change and travel. You will find or have already found that the conditions of this year are restless and unsettling and you feel the urge to do something although not always knowing what exactly you want to do.

This is the time for you to broaden out in your endeavours and try things of a new and different nature. Compared to the test conditions of last year when things started would have brought problems and difficulties, you will find that this year brings the potential for rapid growth and expansion. You may be surprised at how much you can accomplish if you will put forth the effort. As you sow, so shall you reap. This year will determine to a great extent the rewards and beneficial conditions of the next five years.

This is the year when one may either expand the activities of the previous four years, which would be the ideal situation or move in a totally new direction especially if major changes were made last year or in the last six months of the previous year. You will be more impulsive this year, so plan before acting or some of the new experiences will be bitter rather than sweet.

If an opportunity presents itself to travel this year then there may be more to it than would at first appear. In nature this is the time when there is rapid growth of plant life and even a small change may grow into something bigger and better.

If you do not take the opportunity for change or expansion this year and you have been somewhat bored then you may be tempted to make changes later in your nine year cycle when the time may not be as advantageous and your efforts may be undermined.

July and August of this year will be the best time to make major changes affecting your long term plans, although some minor changes may be made in the latter half of February or in March.

Be cautious in January, June and October as these months bring test conditions, such that attempted changes or commitments made would not work out favourably. Do not buy or sell in these months and be more cautious in traveling.

Your health will be more affected in the stomach area if you have weaknesses there causing indigestion, vomiting or nausea and the tendency to mood swings when your efforts are frustrated.

Other 5 Cycle Year Events:

The United States (Jan 1991) goes to war against Saddam Hussein - successful but there is still unfinished business as Saddam is still in office - January was a test month for the US).

Bill Clinton (1993) takes office as President of the United States.

Use the monthly and daily cycle charts in the Numerological DayTracker(tm) to choose specific times for the actions above.

Note: Information on your personal cycle year and on your monthly and daily cycles are now also contained in the new one page/week Numerological DayTracker™. This information plus cycle hours are now included in the one page per day format. The charts included in the Numerological DayTracker will also allow you to calculate what cycle year anyone is in. You can also do this at our web site at www.triune-being.com .

To calculate your cycle year manually:

Add the month and day of birth to the year that you want to know what cycle someone is in, and then add 1. Reduce this total number to a single digit. The number you arrive at is the cycle year for that calendar year. For example, if someone's birthday is July 2nd, and you want to know what cycle year they will be in, in the year 2001, then add 7 plus 2 plus 2001 plus 1. This equals 2010. Reduce this to a single digit by adding 2 plus 0 plus 1 plus 0, which equals 3. Therefore this person will be in a 3 cycle year in 2001.

THE ORIGIN OF THE NAMES FOR THE DAYS OF THE WEEK

The five Anglo-Saxon days were named after important deities (and planets) common among all Norse, Gothic, and Germanic peoples:

Tiuesday or Tuesday - the day of the god Tiw, the war god, guarantor of contracts (fr. mardi - Mars)

Wodensday or Wednesday¹ - the day of the god Woden (fr. mercredi - Mercury)

Thorsday or Thursday - the day of the god Thunor or Thor (fr. jeudi - Jupiter)

Frigsday or Friday - the day of the goddess Frig (fr. vendredi - Venus)

Setternesday or Saturday - the day of the god Seterne (Saturn)

Two days were also added by Christian missionaries:

Sunday - the day of the sun

Monday - the day of the moon.

It was also the Roman Emperor Constantine at the council of Nicea (325AD) that decreed that Christians worship on Sunday rather than on the Sabbath, and set Easter to be on the first Sunday after a full moon on or after the vernal (Spring) Equinox.

Revolutionary France abandoned the seven day week in favour of the decimal ten day week between 1795 and 1805, causing great confusion as religious observances, market days, and festivals had been built around the seven day week. (The ten day week was not a new concept but one borrowed from Thoth in the days of ancient Egypt, five thousand years ago.)

THE ORIGIN OF THE NAMES OF THE MONTHS OF THE YEAR

The names for the months of the year all retain their Roman origin:

January - Janus, god of beginning and endings, and protector of doorways.

February - Februalia, a time for religious atonement.

March - Mars, the god of war.

April - aperire, Latin for "to open" as, spring flowers. (or from the Greek goddess Aphrodite)

May - Maia, the goddess of plant growth.

June - juvenis, "youth". (or from the Goddess Juno)

July - Julius Caesar. Formerly Quintilis, "five"

August - Augustus, the first Roman emperor. Formerly Sextilis, "six".

September - septem, "seven".

October - octo, "eight".

November - novem, "nine".

December - decem, "ten".

The original Latin calendar had only ten months, March being the first month. The winter days occupied by January and February were considered useless and were basically ignored.

9 STEPS TO TRIUNE HEALTH

1. Drink a minimum of 6 to 8 glasses of water per day.
2. Do 20 minutes of aerobic type exercise per day. (e.g. brisk walking or running, rebounding/trampolining, or swimming)
3. If you are the average North American, cut your calorie intake from fat in half. (e.g. reduce or eliminate meat, fried foods, & dairy products)
4. Learn to relax - meditate, especially during 9 cycles.
5. Breathe fresh air deeply, not smoke.
6. Drink alcohol in moderation only (max. 4 glasses/week).
7. Trust yourself - unlock the universal power within.
8. Find and follow your purpose in life.
9. Use a balanced name.

IN THE NEWS 1995-2002

Friday 13th, September 2002: Triskaidecaphobia (Fear of Friday 13th) **Should You Be Afraid?** No, of course not, but maybe you should be cautious if you are in a test day today! Click on My Calendar at left or go to www.numberology.com to see your own personal cycle day.

The origin of the number 13 being unlucky: 13 people at the Last Supper (one of them, Judas betrayed Jesus, and led to the Crucifixion): 13 witches in a coven: the 13th card in a Tarot deck is Death: The origin of Friday being unlucky: Jesus traditionally is thought to have been crucified on a Friday; Hangman's Day used to be on a Friday, the day criminals were executed: Vikings never sailed on a Friday, as it was the day of their god Freya, and they did not want to offend her.

For some Friday 13th is lucky: In Japan, Friday the thirteenth is considered to be an exceptionally lucky day. And the number 13 has not always been considered unlucky: there are 13 Buddhas in the Indian Pantheon, 13 mystical discs surmount Chinese and Indian Pagodas. 13 is a sacred number of the Mayans, with 13 snake gods, and 13 days in their week: the ancient Hebrews had 13 lunar months in the year.

Numerologically there is nothing unlucky about the number 13, which is also 1 plus 3 which equals 4. The 4th position in the cycles of time does however represent the "test" or "challenge" period. You are faced with a challenge to a personal weakness which you must overcome.

September 2002: Peter Doring (775) a local flight instructor based in Edmonton died while piloting a small twin engined plane. His name combination 775 is an accident prone vibration.

July 14th, 2002: Assassination of President Jacques Chirac (born November 29, 1932, IP#1) failed today on France's Bastille Day. A man fired a shot from a rifle but missed the President. Chirac is in his 9 cycle year, and also in a 9 cycle month. A time of endings, his almost came just a short while after being reelected for his second term as President after an unusual election campaign.

April 17th, 2002: Erika Greene (358 both names) just won close to US\$60 million in a US based lottery. What's in a name? In her case it is a name that I have recommend to others for financial success.

March 20th, 2001: Today Stockwell Day (9 cycle month in his 2 cycle year) finally loses his battle to remain leader of the Canadian Alliance to Stephen Harper who received 55% of the votes cast. Stockwell was originally voted leader in his 9 cycle year, and it has been one of the shortest stints as leader of any Canadian political party. See other notes below.

December 2001: The war against the Taliban in Afghanistan appears to be over. However Mullah Omar, the Taliban leader and Osama Bin Laden are nowhere to be found.

December 2001: This is still a test year for the World and a test month. There is no sign of peace between Israel and the Palestinian Authority. And now the nuclear powers India and Pakistan are on the brink of war after the terrorist attack on the Indian Parliament in New Delhi. This is thought to be the work of Kashmiri extremists, that India accuses Pakistan of supporting.

December 2001: Stockwell Day, leader of the Canadian Alliance party finally resigns, just a year into his term. He became leader last year in 2000 his 9 cycle year.

December 7th, 2001: Peter Blake (775) is murdered trying to prevent a robbery attempt on his yacht by pirates at the mouth of the Amazon. He was winner of two America's Cup races and knighted by QE2. The 775 name vibration and especially the 5 expression number are particularly prone to life-threatening situations.

October 11th, 2001: The US (in a 6 cycle year) and World (in a test or 4 cycle year) now face a new terror: Anthrax sent via mail to prominent members of the news media and government of the US.

October 6th, 2001: The US attacks Afghanistan, the leadership of which has been supporting and has close ties with Islamic terrorist Osama Bin Laden, thought to be responsible for many terrorist attacks world wide. The US President George Bush (the second) has tried to build a coalition of countries to fight terrorism as opposed to

fighting Arab or Islamic countries. There appears to be a lot of support (overt and covert) for Osama Bin Laden in Islamic countries with just lip service condemnation of his activities. The mood in Islamic countries appears to express the thought that the US deserves these attacks because of US foreign policy. Unless Islamic countries become more strident in their opposition to terrorism, this may become a war against Islam and the start of World War III.

Sept 11th, 2001: Terror attacks on the USA (in a 6 cycle year in 2001), killing an estimated 6,000 people from 60 countries. Two planes fly into the World Trade Center (41/5) twin towers. One plane hits the Pentagon. Another apparently fails in its mission to hit the White House and crashes into the ground in Pennsylvania. Osama Bin Laden and the Taliban (the leaders of Afghanistan) are blamed. The world is in a 4 cycle year (test year) in 2001 as the note of March 18th, 2001 below indicates. All the major economies of the world have also been in a recession or almost in one. The terror attacks have only created more uncertainty and chaos economically around the world. The airline and travel industries have been particularly hard hit, putting tens if not hundreds of thousands out of work. Countries that rely on tourism especially from North America have been hit hard. See some unusual photos.

An email with quotes from Nostradamus has been circulating on the internet.

Nostradamus' prediction on WW3:

- > "In the year of the new century and nine months,
- > From the sky will come a great King of Terror...
- > The sky will burn at forty-five degrees.
- > Fire approaches the great new city..."
- > "In the city of York there will be a great collapse,
- > 2 twin brothers torn apart by chaos
- > while the fortress falls the great leader will succumb
- > third big war will begin when the big city is burning"

This appears to be a hoax. I have found no such reference in his book.

Some other Numerological influences are as follows:

The date of the attack: $9/11 - 9 + 1 + 1 = 11$

September 11th is the 254th day of the year: $2 + 5 + 4 = 11$ After September 11th there are 111 days left to the end of the year. 119 is the area code to Iraq/Iran. $1 + 1 + 9 = 11$ Twin Towers - standing side by side, looks like the number 11 The first plane to hit the towers was Flight 11.

There's More.....

State of New York - The 11 State added to the Union

New York City - 11 Letters

Afghanistan - 11 Letters

The Pentagon - 11 Letters

Ramzi Yousef - 11 Letters (convicted or orchestrating the attack on the WTC in 1993) Flight 11 - 92 on board - $9 + 2 = 11$ Flight 77 - 65 on board - $6+5 = 11$

July 11th, 2001: His star shone bright for a while, but now his MP's are jumping ship. Stockwell Day can hardly keep his head above water, it won't be long until he is leader no more (of the Canadian Alliance, that is). See the July 8th note below. As many have done before him, he is crashing in his one cycle year after rising so rapidly in his 9 cycle year (last year 2000).

March 18th, 2001: In case you haven't noticed, we may have a recession this year. There has been a lot of turbulence this year in the world economy (stock market crashes), politics (Israel and Palestinians, Indonesia), and weather (earthquakes and floods). It is a test year (4 cycle year) in 2001 for the World, so we need to rise above this turbulence, stick to fundamentals, and overcome bad habits that could pull us down.

December 13th, 2000: After weeks of uncertainty, many court decisions, George W. Bush finally becomes President-Elect when Al Gore concedes.

November 27th, 2000 Jean Chretien wins a third majority government for the Liberal party. Prime Minister Chretien is in his 6 cycle year and seven cycle month. Runner-up Stockwell Day fails to make any major breakthrough in Ontario. Leader of the Opposition Stockwell Day is in his 9 cycle year, a particularly difficult cycle for Canadian

politicians.

November 7th, 2000: Too Close to Call! The 2000 US Presidential Election between the current democratic VP Al Gore (born Mar 31, 1948, 1 cycle year in 2000) and current Texas Governor George W. Bush (born July 6, 1946, 7 cycle year in 2000). In a recent article for Mosaic Magazine I predicted that both major candidates were in good cycles and I could not predict a clear winner. My only comment was that Al Gore would have slightly increasing chances of success in November and George W. Bush would have slightly less chance of success. The result is still unknown (as of November 19th, 2000).

October 6th, 2000: Marty McSorley found guilty of assault with a weapon, but given a suspended sentence. (See March 2000 below)

Sept 28th, 2000. Pierre Elliott Trudeau (born Oct 18, 1919) died today 3pm ET. The former Prime Minister of Canada died of complications resulting from his Parkinson's Disease and prostate cancer. This is his test year (4 cycle year).

Sept 2000. Lisa Anderson is killed by her ex-husband when she returns to her apartment at noon for a lunch break. Both Lisa and Lisa Anderson are 5 vibration names attracting instability and conflict.

July 8 2000. In his 9 cycle year, Stockwell Day (336) becomes the first elected leader of the new Canadian Alliance Party (formerly the Reform Party), beating founder Preston Manning (358, 1 cycle year in 2000) in a run-off vote. Day was born August 16, 1950 (Inner Potential number 3, Water group). As Stockwell day is in his 9 cycle year, his star may never be quite so bright again.

June 1 2000: Synchronicity - Serendipity - Coincidence? Last week I finished the on-line calculator that calculates number values of Koine Greek words and phrases (Greek Numerology - the system that is in the New Testament) including the number of the beast (the anti-christ) 666 and the name Jesus in Greek 888. I bought a new digital camera today in an 8 cycle hour, 8 cycle day, and 8 cycle month. The 8 cycle is good for making purchases and getting a good deal. In fact today the camera price was just reduced by \$100. It was also the last camera that had 20MB of memory, all the others which were at the same price, only had 8MB. What did the total bill come to? \$888!

May 2000: What's in a name? Enrique Iglesias is the best-selling Latin recording artist in the world. His first two albums sold more than 10 million copies. His name totals to a successful 8 vibration. (VCT=178) Calculate his name or any other using our new on-line name calculator (and cycle year calculator).

May 2000: Cirque Du Soleil - the most successful circus performing act! Now on an 81ft high IMAX screen. Vibration 448.

March 2000: It looks like the 2000 US Presidential Election will be between the current democratic VP Al Gore (born Mar 31, 1948, 1 cycle year in 2000) and current Texas Governor George W. Bush (born July 6, 1946, 7 cycle year in 2000). They beat contenders Bill Bradley (2 cycle year in 2000) and John McCain (4 cycle year in 2000) respectively.

March 2000: The Jon-Benet Ramsey murder case has still not been solved. The 6 year old girl was found strangled on Dec 26, 1996 by her parents in their home. Jon-Benet was born Aug 6, 1990; she was in a test month and a test year when she was killed.

March 2000: Marty McSorley of the Boston Bruins has been charged with Assault With A Weapon, against an opposing hockey player, causing a concussion. Marty had said he only wanted to fight him - not hit him in the head with his stick! The name Marty is a 14/5 vibration and prone to uncontrolled physical aggression. Two months ago, a client was beaten by his landlord in Vancouver so badly, he lost an eye. The landlord's name was also a 14/5 vibration: he continued kicking his tenant in the head even while the tenant was crawling on his hands and knees trying to get back into his house and pleading for mercy.

February 2000: Alberta's New Democrat leader Pam Barrett resigns after having an NDE (near-death experience) after an adverse reaction at the dentists. Pam was born Nov 26, 1953, her inner potential number is 1 (leader, pioneer) and she is in her test year (4), where weaknesses are exposed. Pam took over the leadership 4 years ago in her 9 cycle year. The 9 represents endings not beginnings, and usually leads to burn-out: Pam also had a six-week stress leave last year. The inner potential number 1 is a survivor, most would not have lasted this long.

Former Prime Ministers John Turner and Canada's first woman Prime Minister Kim Campbell became Prime Ministers in their 9 cycle years and neither lasted as PM even a year.

November 1999: Pokemon the movie is now out, and becomes the most popular cartoon ever released. Pokemon has already captured the imagination and pocketbooks of millions of card collecting children. The name Pokemon has the same vibration as Monopoly, Trivial Pursuit, & Scrabble, three other extremely successful and popular games. Go to the key chart area on our web site www.triune-being.com and find which number for yourself.

Oct 31st 1999: Canadian Greg Moore dies in race car accident in the last race of the season. He was in a 5 cycle month with a 4 (test) modifier. This month as well as a 4 month with a 5 modifier are the most dangerous for travel. There is the tendency to rush or be impulsive when test conditions are prevailing.

Oct 25th 1999: Payne Stewart, (born Jan 30, 1957) US Open Golf Champion, died when the Lear Jet he was in, crashed in a farmers field after a 4 hour flight with no one at the controls. His name is a '5' vibration and therefore accident prone.

Oct 1999: Abdurrahman Wahid (aka Gus Dur) born Aug 4, 1940, becomes Indonesia's first democratically elected President. This is his 5 cycle year, although October is a 4 cycle month (test). His failing health may lead to the new Vice-President Megawati Sukarnoputri (born Jan 23 1947), daughter of Indonesia's first Preside Sukarno, becoming President in the next five years. She is in an 8 cycle year (rewards) this year.

Sept 15th, 1999: The largest evacuation in US history takes place in anticipation of tropical storm 'Floyd'. The US is still in a 4 cycle year, its test year. 1999 Nelson Mandela resigns as President of South Africa. He is in a 9 cycle year and its a perfect time to retire.

September 3rd, 1999: Canada's worst highway traffic accident occurred near Windsor, Ontario at 8am. 64 vehicles were involved and at least 7 dead. It is Canada's test month, but probably more important the accident occurred on Highway 401, often referred to as the 'Killer Highway'. '401' is a '5' vibration and more suitable for a race track not a public highway number.

1999 Nelson Mandela (born July 18, 1999) retires from the Presidency of South Africa. A perfect time for him to do so as it is his 9 cycle year, a time to end things and to rest.

July 16th, 1999: John F. Kennedy Jr, his wife, and her sister presumed dead. His plane apparently crashed into the sea. JFK Jr born Nov 25 1960. 1999 was a 2 cycle year, and July was his test month.

June 1999: After a peace agreement, the air war stops and the Serb forces withdraw from Kosovo, and Nato and Russian forces move in. The hundreds of thousands of Kosovo refugees move back to find a devastated countryside, and most of their homes burned to the ground.

March 1999: Nato with the US in the lead starts bombing Serbian forces in Serbia and Kosovo. The US is in a test month (4 cycle) and in a test year (4 cycle). As usual anything started in a test cycle is unlikely to succeed. The aim of air intervention was to stop "ethnic cleansing" in the predominantly Albanian Kosovo. The result in the first week of bombing has been the intensified expulsion of many hundreds of thousands of Kosovons from their homes, and the burning of their homes by Serb forces behind them. Support for Slobodan Milosevic, the Serbian President appears to have increased not decreased.

March 29th, 1999: The DOW Jones Index closes above 10,000 for the first time. The US is in its test year (4 cycle), and not relative to major growth. This could indicate the potential for a major downturn, which many feel is long overdue.

March 1999: OK you've heard enough about Monica Lewinsky (July 23 1973), but she is finally getting on with her life. She is now out of her test year (4 cycle year, last year 1998 when all the problems arose), and is now promoting her book etc to make some money to pay the millions of dollars in legal bills she has incurred.

Feb 1999: Although President Clinton was only the second President to be impeached, he was finally acquitted of both charges brought against him. President Clinton was originally elected in his 4 (test) cycle year.

Feb 7th 1999: King Hussein of Jordan died today. The King was born November 14th 1935 (IP#7) and died in his 9 cycle year (endings and rest), and in his test (4 cycle) month.

Lucien Bouchard was in his 8 cycle year in 1998, when he called an election in Quebec for November 30th 1998. This gives him an edge over Jean Charest, the Liberal party leader, who was in his 4 cycle year in 1998. Should Jean Charest win the election, it would still indicate a less than auspicious term in office. Just as Bill Clinton's election in his 4 cycle year for his first term has resulted in impeachment hearings for him because of the scandal with Monica Lewinsky etc. In this case Jean Charest may do well to lose the election. Note: At the time this article was written (one month before the election), both parties were neck and neck in the polls.
(Update Dec 1 1998 - Lucien Bouchard of the Parti Quebecois beats Liberal leader Jean Charest.)

November 14th 1998 Michel Trudeau, son of former Primer Minister Pierre Trudeau, died in an avalanche while skiing in BC. He was born Oct 2, 1975. His name is a '5' vibration (accident prone) and he was in a 4 cycle year (test) in 1998.

November 1998 Newt Gingrich resigns as Speaker of the House (USA). He was not able to recover from his disastrous 4 cycle year in 1996, and the recent election blunder against Clinton and the Democrats only hastened his way out. Bob Livingston takes over.

October 1998 Yevgeni Primakov appointed Prime Minister of Russia. He is in a 4 cycle year in 1998. Not a good outlook for his tenure as PM. Update: Boris Yeltsin fired him a few months later, early in 1999.

Aug 29th 1998 The Dow Jones has its second largest drop in history. Any gains of 1998 have now been wiped out. The market reached its peak on July 17th, just one day before the test period begins for the US. Next year 1999 is the 4 cycle year (test year) for the US. Almost all recessions and depressions have been when either the US or the world has been in a 4 cycle year.

February 1998 The Winter Olympics in Nagano, Japan. Canada is once more embroiled in a drug fiasco. This time with snow boarding gold winner Ross Rabagliati (born July 14th 1971). He has been tested positive for marijuana and been asked to return his gold medal. An appeal is in process. Canada is in its test(4) month in a 9 cycle year. Ross is in his test year(4).
(02/98) Ross succeeds in his appeal, and gets to keep his gold medal, his reputation tarnished for some, but enhanced for others.

Princess Diana (born July 1st, 1961) dies at age 36 on August 31st, 1997. This was a test day for Princess Di, however it was also an 8 cycle year. This year was meant to bring her the rewards of the past 8 years of effort and desire. Diana certainly wanted desperately to be loved and it seems that she had found her new love in her companion Dodi Al Fayed. However, Diana also tried to commit suicide several times, so there was also some kind of death-wish. This perhaps unresolved desire could also have been the catalyst for the events in the Paris tunnel that night.

Dodi Al Fayed (birthdate unknown) has a 5 destiny name. This can be accident prone, see the other influences below.

Princess Diana by her death in this manner joins JFK, Marilyn Monroe, and Evita Peron, who were also inner potential number 7, and who also met untimely tragic deaths, with the loss felt by millions around the world.

1997 is also a 9 cycle year for the world. The outpouring of grief has caught everyone by surprise. The nature of the 9 cycle is to let go. It seems that people are also allowing their own suffering or burdens to be expressed and discharged. A 9 cycle is the best time to do this, as long as other negative energies like resentment and anger such as that focussed on the paparazzi is not allowed to colour and contaminate one's thoughts.

OJ SIMPSON Born July 9th, 1947.

Inner Potential #: 1 Cycle Year in 1994: 4 (Test Year)

OJ's wife and a male friend were murdered June 12th, 1994, and OJ was charged with the murders. OJ certainly has a test to overcome if he is found guilty. It is interesting to note that OJ is currently in his second minor lesson (9 - ages 27-54), and the combination of this with his inner potential number of 1 indicates intense physical energy combined with emotional energy. Violent and uncontrollable outbursts are linked with this combination. (News update: OJ was acquitted Oct 95. This is his test month, his problems are not over yet)

Nick Leeson and his Billion Dollar Gamble

Nick Leeson was a broker for Barings Bank, a prestigious and old British Bank, and banker to the Queen of England. His is currently under investigation for causing the collapse of the Bank, by illegally trading on the

Japanese Stock Market. He used a secret account, number 88888 to make these trades. The number 8 in Asia is considered lucky, just as numerologically it represents rewards, and one would think that five 8's would be quintessentially lucky. However $5 \times 8 = 40$, and $4 + 0 = 4$, and 4 represents the test, or time when weaknesses are exposed. OJ is experiencing this and now so is Nick Leeson.

United States of America Born July 4th, 1776
CYR(1995): 9

The republicans have taken over the House of Representatives for the first time in forty years. There are high hopes for this revolution, however they will be shattered very quickly. The 9 cycle year is a time to reflect upon changes but to delay implementation until the 1 cycle year (1996). Much of what the republicans do will be undone, or have to be redone. Expect much turbulence in US affairs this year (1995).

Newt Gingrich Born June 17th, 1943. Cycle year in 1996: 4

The Speaker of the House will have a rougher ride this year (1996). He will be unlikely to live up to his promises of last year when he became Speaker (his 3 cycle - starts with promise). (News update: June 1996 - Newt's popularity has plummeted this year.)

US Presidential Election (Nov 5th, 96)

Clinton wins (8 cycle year) with 50% of popular vote, against Bob Dole (1 cycle year).

Christopher Reeve Born September 25th, 1952

May/June 1995 This month was not a good one for Superman. He had a horse riding accident and may be left paralyzed. This was in his test period (May(3/8) and June 4/9), indicating caution in all activities. Also Christopher Reeve is a name with a 5 destiny, which is also accident prone.

1995 Edmonton's "Edmonton Queen", the North Saskatchewan River paddle boat may yet get off the ground and into the water. It has been plagued with ownership problems and been in dry dock for the past 2 years. The name is a 9 destiny and subject to losses and endings. The original owners were sued for cost over-runs by the builders, and the new owners have been entangled with legal and other problems. (Update Sept 1999: The "Edmonton Queen" may be pulled out this year, and moved elsewhere if they first pay the City of Edmonton for past moorage fees and costs associated with accidents over the past few years. The name should have been changed long ago.

August 95 - Brian Smith, popular sportscaster in Ottawa was shot dead in an apparently random act of violence by a man upset with the media. Brian Smith is a 5 destiny name and once again prone to accidents or being at the wrong place at the wrong time.

Jan Reimer Born May 23rd, 1952. Jan is currently mayor of Edmonton and is running for re-election in October. This is her 8 cycle year(1995), her reward year, and so is likely to win another term. Both Ralph Klein (Alberta premier) and Jean Chretien (Canada's prime minister) were both in their 8 cycle years when they were elected. (News update: Jan lost by a very slim margin to Bill Smith - cycle unknown. I met Jan just before the election, and I'm not sure she wanted to win. She seemed worn out.)

Quebec referendum on separation, October 30th, 1995. Quebec narrowly votes Non. Quebec premier Jacques Parizeau (b. Aug 9 1930) resigns the following day, Lucien Bouchard considers taking over. The current Liberal government of Canada was elected in Canada's test year (1993), and has been criticized for almost losing the country by not taking the referendum seriously. (update 95: Lucien Bouchard becomes Premier of Quebec)

Now released since 1997, the Numerological Day Tracker™. Enter your appointments and know exactly what cycle year, month, and day it is! (The 1 page/day format also includes cycle hours.) Let me know what your favourite calendar format is. You can always tell when it's a test hour, a 4 cycle: my printer won't print any more profiles, and if I'm driving my car, it seems everyone wants to get in the way or is driving erratically. I narrowly missed a major crash during a test day and test hour just after the New Year, which was also a test month. Fortunately, I knew it was at test cycle and was prepared.
